

# From the AIR PROGRAM

## BPT Air Program Online Resources Updated

If you visit <http://bishoptribeemo.com/resources.htm>, you'll find some new links and resources under the following categories. You can also go to the Tribal home page, navigate to the Environmental page, then click the tab for Air, then the tab for Resources.

**Tribal Air Quality** - Links to neighboring Tribal Air or Environmental home pages and data exchanges.

**Air Quality** - Links to regional, Great Basin, and state air quality monitoring pages, and NASA air quality.

**New! Health Impacts of Air Pollutants** - Links to the official EPA and WHO pages summarizing studies and demonstrated relationships between monitored air pollution and health impacts such as cardiovascular, respiratory, mortality, and other conditions.

**Fire Information** - Links to inciweb, CalFire, etc.

**Weather** - Links to National Weather Service, Owens Valley webcam, NOAA Climate book for Bishop.

**Satellite** - Links to NASA and NOAA remote sensing viewers.

**Snowpack & Water** - Links to Eastern Sierra and state water data resources.

## New Online Fire & Smoke map

A new map of air quality monitor data and “smoke plumes”, which you may find useful, has been released by EPA. Location-based link: <https://fire.airnow.gov>  
It's to be expected that Tribal monitors in the region will be added over time to the map.
